

XL Series

XL Pre Separator

When large amounts of dust are produced during grinding, it is advisable to use a pre separator. The special cyclone system captures **98%** of the material before vacuuming, greatly improving the filter efficiency and protection of your dust extractor from clogging easily. The XL can be used in conjunction with all common industrial vacuums and dust extractors.

Model	XL
Collection	Continuous drop-down bag
Dimension (mm)	500X620X1270
Weight (kg)	32

Main features:

1. More efficient work performance.
2. Continuous bagging system to collect the dust easily.
3. Very low cost maintenance

X Series

Cyclone Separator

Can work with different vacuum cleaners. Filtering more than **98%** of dust, stopping a bulk of the dust from entering the vacuum cleaner. Lengthens the vacuums working time to protect the filters and extends the filters life time. The X60 is a bagless system, whereas the X60B is designed for use with a bag.

Model	X60	X60B
Tank volume (L)	60 L	60 L
Dimension (mm)	450X450X870	430X430X880
Weight (kg)	16	15
